

Manage atmosphere across the estate.

Background music should do more than play tracks. Stylish Ambience shapes atmosphere through the trading day, removes playlist management from staff and gives operators one clear view across every venue.

01 The right music through the day DJ-programmed music shaped around each venue, service period and trading moment.	02 No playlists for staff to manage Central control, with Guest Requests kept within venue rules.	03 Every venue visible in one place Live uptime, now-playing visibility, remote management and reporting.
--	--	--

Guests participate. **Staff don't.**

Guests scan a QR code and choose from music approved by the venue. Requests can be free or paid. The system handles the rest.

Their choice. Your catalogue.

COMMERCIAL UPSIDE

01 More engaged guests	02 Longer dwell time	03 More memorable visits	04 Optional incremental revenue
--	--	--	---

More engagement. Longer stays. **More reasons to return.**

BUILT FROM INSIDE HOSPITALITY

For around 13 years, Nigel Peirce has supplied music across Wadworth's managed pubs, with Stylish Ambience V2 now rolling out across the managed estate. He has also been a resident DJ at Babington House for more than two decades.

Let's make background music matter again.

Not louder. More meaningful.

Worth 20 minutes?

A straightforward conversation about how music is managed today — and what could be automated across your venues.
