

Manage Atmosphere.

The Hospitality Atmosphere Platform by Stylish Ambience

The complete platform for creating better experiences.

CURATED MUSIC · INTELLIGENT AUTOMATION
ESTATE CONTROL · GUEST PARTICIPATION

Built for pubs, bars, hotels and hospitality groups.

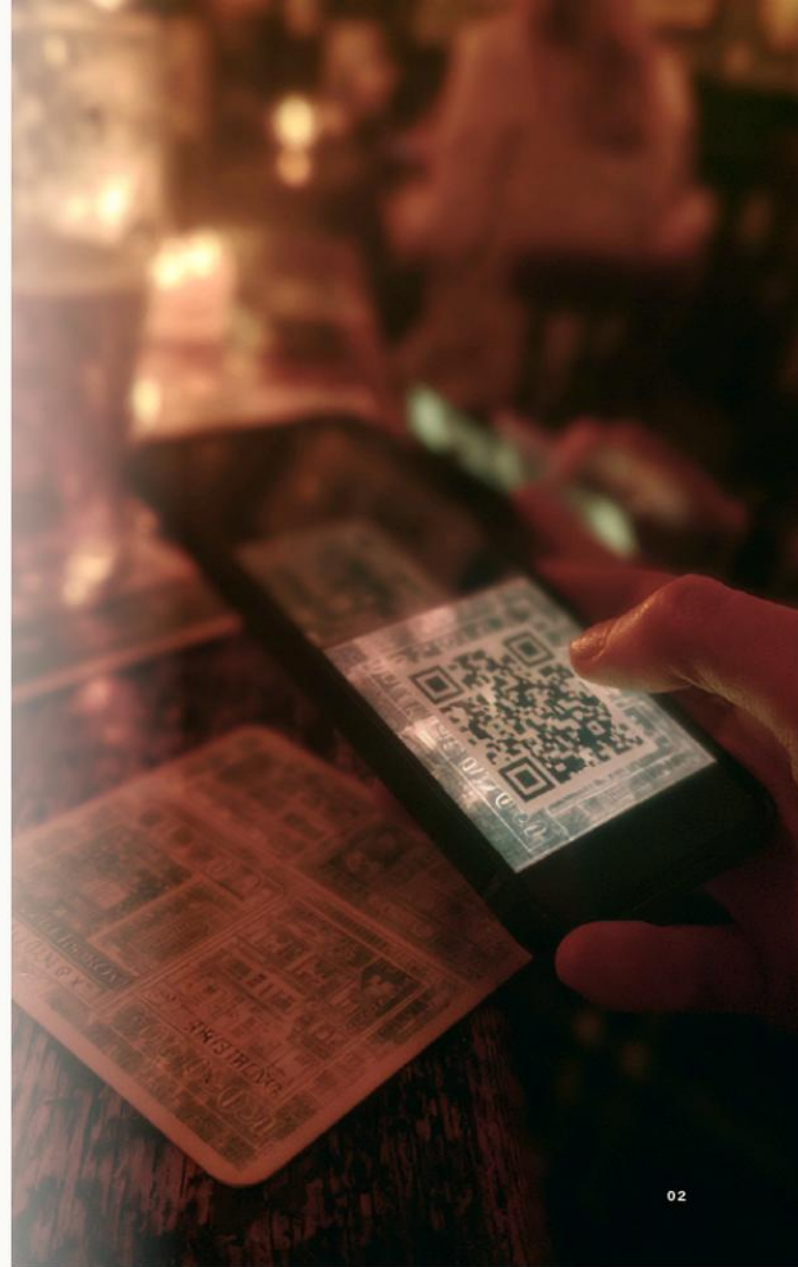

Hospitality has changed. **Music hasn't.**

Hospitality has transformed almost every part of its business over the last decade.

Music is one of the last things still left to chance.

It's time to rethink atmosphere.

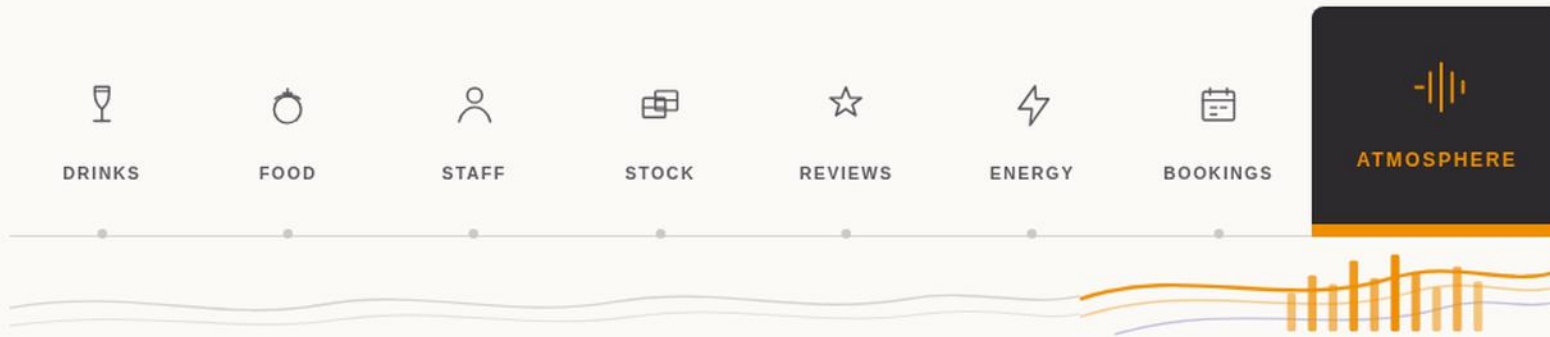

STYLISH **Ambience**

THE HOSPITALITY ATMOSPHERE PLATFORM

Everything is managed.
Except the atmosphere.

One Platform.

STYLISH **Ambience**

THE HOSPITALITY ATMOSPHERE PLATFORM

Every Moment.

Automatically creates the right atmosphere throughout every trading day.

From breakfast to late-night drinks.

From quiet afternoons to packed Friday nights.

Free or paid requests — you choose.

That's it — **the system does everything else.**

STYLISH **Ambience**

GUEST REQUESTS

Friday night.

Busy pub.

Friends around a table.

Someone scans the QR code.

They choose from music approved by the venue.

Later that evening...

Their song becomes part of the soundtrack.

No member of staff touched a thing.

The music belongs to everyone.

THE ATMOSPHERE BELONGS TO YOU.

Designed for hospitality. **Not adapted to it.**

 Music left to chance	→	 Atmosphere automated through the trading day
 Staff phones and playlists	→	 No staff playlist management
 No estate visibility	→	 Live estate dashboard + remote management
 Passive background music	→	 Controlled guest participation + reporting

Optional upside: paid Guest Requests can create an additional revenue stream.

One platform. Every venue. Less staff input. **More control.**

Turn atmosphere into a **commercial advantage.**

Stylish Ambience helps operators create better guest experiences while keeping complete control.

COMMERCIAL UPSIDE

- 01 More engaged guests
- 02 Longer dwell time
- 03 More memorable visits
- 04 Optional incremental revenue

Guest Requests are controlled — **never** an open jukebox.

EVERY VENUE DECIDES:

- What guests can choose
- When Guest Requests are available
- Whether requests are free or paid
- How many requests each guest can make

Their choice. **Your catalogue.**

More engagement. Longer stays. **More reasons to return.**

The future of hospitality atmosphere.

Stylish Ambience is redefining how hospitality operators manage atmosphere.

AI Atmosphere Optimisation

One platform. One login. **One atmosphere strategy.**

BUILT FROM INSIDE HOSPITALITY

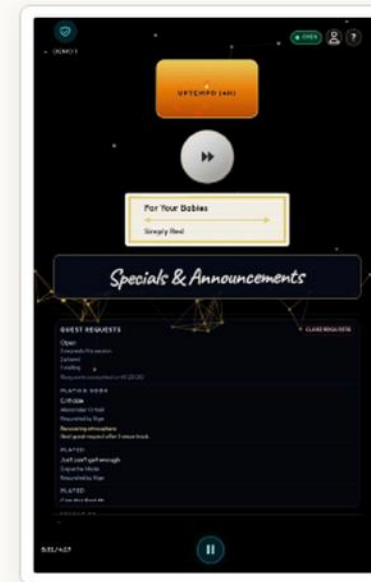

Built by hospitality. Powered by technology.

Stylish Ambience wasn't born in a software company.

Nigel Peirce has been a resident DJ at Babington House since 2003, and has supplied music across Wadworth's managed pubs for around 13 years.

Thousands of nights. Thousands of guests. Thousands of moments where the right music changed the atmosphere.

Every lesson has shaped this platform.

Hospitality has evolved. It's time music evolved with it.
